

## Year 7 Create the ending to a story [using Kahootz]

**What am I doing? Is it going well? What should I do next?** Read through the criteria below and highlight important words or details that will help you with your Kahootz animation. What would you like to achieve?

	Prestructural	Unistructural	Multistructural	Relational	Extended Abstract
<b>Ideas</b>	I need help to develop a central idea/theme for my story animation	I have an idea for my story animation.	I have a central idea/theme for my story animation <b>and I have several ideas to develop this.</b>	I have a central idea/theme for my story animation, several ideas to develop this <b>and I can explain how these ideas will develop the central idea</b>	I have a central idea/theme for my story animation, several ideas to develop this and I can explain how these ideas will develop the central idea. <b>I have created key events, characters and settings in my story to develop a logical story with a clear central idea/theme.</b>
<b>World/s and Objects</b>	I need help to use world/s and objects in my story	I use simple world/s or objects in my story	I use simple world/s <b>AND</b> objects in my story.  I use scenes and resize objects to add interest.	<b>I animate</b> a variety of world/s and objects <b>and can explain why this develops my central idea.</b>  I use animation and key points that play automatically to make my story interesting to watch	I animate variety of worlds and objects, can explain why <b>and evaluate how effective this has been in developing my central idea.</b>  My story 'shows' the reader what is happening, rather than just 'telling' them.
<b>Structure</b>	I need help to organise my ideas into a sequence.  I need help to use structures/effects to make my story interesting to view.	I have started to organise my story ideas, but my sequencing needs more work.  I use one structure/effect to make my story interesting to view	My story ideas are ordered into a beginning, middle and end.  I use several structure/effect to make my story interesting to view	My story ideas are ordered and linked and I can explain how these links make my story animation flow in a logical way.  I use a variety of structures/effects to make my story animation interesting to view. I can explain why I have chosen them.	My story ideas are ordered are linked and I can explain how these links make my story animation flow in a logical way. My sequence of ideas is balanced and well-paced.  I use a variety of structures/effects to make my story animation interesting to view. I can explain why I have chosen them and evaluate the impact they give to my story animation.
<b>Accuracy</b>	I need help to proofread the elements in my storyboard	My storyboard has a number of errors	My storyboard has some errors to correct.	My storyboard is mostly accurate but I can identify a few errors and explain why they need to be corrected.	My storyboard is accurate. I have corrected all the errors so that it is easy to view.
